

# Community Veteran Justice Project

A Community Partners project

## What We Do:

- Provide one-on-one support for justice-involved veterans
- Assist current and former service members in receiving alternative sentencing rather than incarceration for some felonies and diversion for all misdemeanors, resulting in some cases being dismissed and records sealed!
- Connect and coordinate individuals with the entities and documentation needed to utilize the CA veteran statutes
- Connect current and former service members to additional services (housing, health care, education, wellness, mental health and more)
